

Gradients, Gradient Descent & Assessment

Mathematics Foundations — Session 4

Etienne Chassaing

Today's Goal

- Read the gradient as the direction of steepest ascent
- Apply gradient descent one step at a time and see the effect of the learning rate
- Locate minima with the first- and second-derivative tests, and see why a neural-network loss has no easy global minimum
- Applied check: a matrix product, a chain-rule derivative, one gradient-descent step, plus an individual oral question

Plan

1. Opening Quiz
2. The Gradient
3. Gradient Descent
4. Minima
5. Applied Check (Final Hour)
6. Recap
7. To Do for Next Session

Opening Quiz

1. Opening Quiz
2. The Gradient
3. Gradient Descent
4. Minima
5. Applied Check (Final Hour)
6. Recap
7. To Do for Next Session

Opening Quiz: Derivatives & the Chain Rule

The Gradient

1. Opening Quiz
- 2. The Gradient**
3. Gradient Descent
4. Minima
5. Applied Check (Final Hour)
6. Recap
7. To Do for Next Session

The Gradient as a Vector of Partial Derivatives

Gradient Descent

1. Opening Quiz
2. The Gradient
- 3. Gradient Descent**
4. Minima
5. Applied Check (Final Hour)
6. Recap
7. To Do for Next Session

Gradient Descent

Minima

1. Opening Quiz
2. The Gradient
3. Gradient Descent
- 4. Minima**
5. Applied Check (Final Hour)
6. Recap
7. To Do for Next Session

Minima

Applied Check (Final Hour)

1. Opening Quiz
2. The Gradient
3. Gradient Descent
4. Minima
- 5. Applied Check (Final Hour)**
6. Recap
7. To Do for Next Session

Applied Check

Individual Oral Question

Deliverable

The completed applied check, including one gradient-descent step by hand.

Recap

1. Opening Quiz
2. The Gradient
3. Gradient Descent
4. Minima
5. Applied Check (Final Hour)
- 6. Recap**
7. To Do for Next Session

Recap

To Do for Next Session

1. Opening Quiz
2. The Gradient
3. Gradient Descent
4. Minima
5. Applied Check (Final Hour)
6. Recap
- 7. To Do for Next Session**

To Do for Next Session
